

## **DIGITAL COOKIE**

Digital Cookie allows Girl Scouts to create a customized website and send emails to people they know, asking them to buy cookies. Customers place online orders and have the option for the cookies to be shipped directly to their homes or to be delivered by their favorite Girl Scout when cookies are available in March.

### **VOLUNTEER ACCESS TO DIGITAL COOKIE:**

1. Watch for an email that will have “Girl Scout Cookie Program” as the sender and the “from” email address will be email@email.girlscouts.org. This will launch on **December 14** for Cookie Managers or when you are uploaded after that date.
2. Click on the green button in the email.
3. Create a password and use your email address and password to login.
4. View the safety video and sign the terms and conditions; there is a set of Terms & Conditions for each role, so if you have multiple roles you will sign multiple Terms & Conditions.
5. Check out your troop’s progress on your Digital Cookie dashboard.

Please note that the email that will be used for Digital Cookie is the email used for your registration in MyGS. If your email for your registration is different from the email used for your Girl Scout’s registration, both emails will need to be set up for Digital Cookie use between your roles as troop leader and caregiver.

When logging in, you will be prompted to select a role; parent or troop leader. If you have one email address on file for all roles, you can switch between them using the “Select a Role” button at the top.
